WORK EXPERIENCE

IT Manager

Intrawelt

🕒 10/2024 – Ongoing 📍 Intrawelt

- Microsoft 365 Business expertise
- Certificazione qualità
- IT administration and billing
- Project planning, scheduling, controlling
- Technical knowledge architecture leader & documentation
- Infrastructure & Virtualization
- Cloud platforms and services
- Support and automation
- Formatting machines and operating systems
- Networking engineering and security
- Leadership, Management & cross-cutting responsibilities
- Entrepreneurship and technical leading
- Full-stack development and devOps (SaaS)
- LLMs and Generative AI (custom project technical lead)
- Software & License management and migration
- Backup strategies design, storage and disaster recovery
- System Administration (formal appointment)
- Advanced helpdesk
- Time and attendance management software (migration and deployment)
- ERP & Business applications (software developing)
- Data management, analytics & reporting
- **Cybersecurity & IT Governance, strategy and risk management:** pursuing a comprehensive self-study in cybersec and IT regulations complete roadmap including policy frameworks, and threat mitigation strategies. Willing to take the **CompTIA Security+ exam** to validate professional knowledge along with **ISO27001** foundation certifications. I am the ISO/IEC 27001 internal implementation leader and ISMS, **NIST** studying and experience.
- IT service design and user experience
- Experimental or ad-hoc projects

Product Manager

Clementoni S.p.A.

🕒 09/2023 – 10/2024 📍 Clementoni

- Definition of new products with market requirements and monitoring of competitors for product strategy
- Identification and management of foreign suppliers
- Collaboration with all company functions (Operations, Marketing, Sales, Graphic Designers, Developers)
- Presenting reports to stakeholders (internal and external) and CEO
- Analysis, definition, and review of costs
- Leading the end-to-end development lifecycle for innovative gaming experience along with a pedagogical approach and UX
- Monitoring product performance and data through PLM software
- Ensuring achievement of product roadmap objectives

Electroacoustic product engineer

Elettromedia S.p.A.

🕒 09/2020 – 09/2023 📍 Elettromedia

- Engineering and development of loudspeakers for international clients across all stages of the development and production lifecycle
- Translating product technical requirements into design options
- Electrical and acoustic tuning of modern audio systems for car, marine and professional audio (PA) sectors
- Quality assessment and setup of complex audio systems
- Managing project workflows with daily interaction with overseas production teams

EDUCATION

M.Sc. in Telecommunications engineering

Politecnico di Milano

🕒 09/2017 – 06/2020

Thesis: Feature-based characterization of loudspeakers

B.Sc. in Electronic engineering

Università politecnica delle Marche

🕒 09/2014 – 07/2017

Thesis: Study and development of synchronization systems performances for gps-based WSN

Part time Master in Business Strategy and Management - 3rd Edition

ISTAO

🕒 04/2023 – 01/2024

Business trends and models, strategic planning and HR management as a strategic growth driver. KPI analysis of company financial and economic performance including cost and sales control. Business planning, investment evaluation, budgeting, and reporting. Insights on team leadership and management, with a focus on B2B marketing and sales. Communication and negotiation skills for internationalization and market expansion. Knowledge of Lean-based process management, time management, and productivity enhancement.

24CFU Educational Path

Università di Camerino

🕒 06/2020 – 07/2020

Anthropology, psychology, and pedagogy teaching methodologies

MOST PROUD OF

Full IT Infrastructure end-to-end transformation

Complete redesign of Intrawelt's IT infrastructure encompassing server architecture (Proxmox, Windows, Linux), cloud and NAS storage management and full software migrations (ABBY, Trados, Timewalker, Biostar). Hands-on expertise with AWS services (roles, stacks, CLI, EOL). Led network overhaul including routers, switches, Zyxel firewall, VPN (IPsec), rack organization and configuration. Established centralized RMM with NinjaOne and implemented comprehensive backup strategies with professional-level proficiency. Delivered robust disaster recovery, business continuity planning, data governance, storage optimization, and advanced full helpdesk support, achieving a resilient and strategically organized IT environment with access control.

Le mie prime 100 parole

Managed complete product lifecycle of "Le mie prime 100 parole", coordinating design, development, supplier relations, scheduling, and cross-functional teams from concept to launch.

Hertz HTX 8 M-CL-W / -C

End-to-end development of Hertz HTX 8 M-CL-W/C clamp tower speakers, overseeing concept, electroacoustic simulations, testing and environmental compliance

LANGUAGES

Event production staff (contract)

Labilia

🕒 08/2018 – 10/2019

- Event logistics (on-site operations, setup, supervision, and troubleshooting during events managing technical gear and materials and adapting quickly to unexpected issues)

Bar attendant, Waiter (contract)

Caffè del teatro Cerolini

🕒 06/2013 – 08/2017

📍 Caffè del teatro

- Bar and table service, served coffee and artisan ice cream.

PROJECTS

Company-related Projects

🕒 09/2024 – ongoing

- **SaaS application technical leading:** scenia® AI portal
- **Qdrant + Ollama + n8n Self-Hosted Knowledge Management:** Leading the implementation of a secure, on-premise RAG system integrating Zep and Ollama on Ubuntu, managing a 3,000-page hand-authored, multi-level documentation corpus across IT domains. Configured vector store, knowledge graph, and n8n workflows for automated context-aware helpdesk responses, ensuring full data control and low-latency retrieval for enterprise knowledge management.

Private projects/applications

🕒 09/2023 – ongoing

- **Wedding planner app:** Full-stack React/Firebase wedding-planning application with guest management, RSVP, calendar export and internationalization; in active development.
- **Infrastructure & self-hosting:** self-hosted password/2FA stack (Vaultwarden, Caddy with automatic TLS, dynamic DNS, Oracle Cloud); Windows machine state snapshot/restore tooling with drift detection; home-lab network segmentation and monitoring.
- **AI & automation tools:** local legal-research assistant exposed as an MCP server with full-text search over Italian legislation; offline audio transcription and diarization tool (WhisperX, CLI and GUI); algorithmic trading bot for Interactive Brokers; custom Telegram bot with a PostgreSQL backend.
- **Web apps & tools:** personal bilingual blog (Next.js, MDX); deployed Pokémon competitive team-builder with role/coverage analysis; configurable travel-itinerary web app (Firebase, interactive maps); Italian crossword-builder with dictionary-based auto-fill.
- **Audio & hardware:** headphone-amp/USB-DAC reverse-engineering report; VHS digitization and AI-upscaled restoration pipeline; DIY 2-way home-studio monitor design; deep Android device customization with audio spectral-analysis tooling.
- **Personal data tools:** PayPal-to-Sheets accounting sync; trading-card collection tracker with live market pricing.

Academic projects

🕒 09/2017 – 02/2021

- **Identification of nonlinear devices in Guitar Speakers (01/2021 – 05/2021):** Private collaboration with a university project for the UNI-VPM Multirate DSP and Adaptive Filterbanks course (AY 2020/2021). MATLAB and C++ algorithm implementation using Volterra series and exponential sweep.
- **Developing app for listening test (01/2020 - 02/2020):** MATLAB GUI for administering a controlled listening test on loudspeaker perception, developed for the master's thesis Feature-based characterization of loudspeakers: subjects rated loudness, timbral balance and preference via slider-based scales, with audio playback routed through OSC to Reaper for sample-accurate switching between loudspeakers.
- **Harmonic Tension Extractor (03/2019 - 08/2019):** Implementation of a VST3 plugin based on geometrical modeling of tonal harmony with the mathematical Spiral Array model within the JUCE framework for intelligent lighting engineering for Festivalle electronic music stage in Valle dei Templi, 9 and 10 August 2019.
- **EOLO tv spot (09/2019 - 12/2019):** Sound design and reinforcement of official commercial advertizing spot
- **Gesture Glove Harmonizer (2018):** web app interacting with micro-controller
- **Channel Estimation and Equalization for MIMO Systems (2017):** smart matrix frame for a statistical DSP problem

INTERESTS AND PERSONAL GROWTH

Instruments and music theory

Lead guitarist since 2008, with private lessons, live and recording studio experience. Passionate in learning technically challenging pieces and acoustic fingerstyle guitar. Solid background on professional music production and analog audio electronic engineering. Self-taught bass player too and former self-taught drummer for personal challenge and fun. Aiming to publish a book 📖 offering a fresh perspective on *western harmony* analysis music theory through an analytical study of secondary dominants, authored with a reproducible LaTeX/LilyPond toolchain.

Modern audiophile enthusiast

Passionate about optimizing the entire audio chain for high-fidelity listening through professional-grade hardware, external DACs, and high-quality digital masters. Dedicated to critical listening and fine-tuning.

Personal Finance

Deeply interested in personal finance and the technical workings of financial instruments and self-applied financial principles to personal investments informing my own decisions *portfolio*. Study of quantitative finance through math, programming, personalized tools.

Gaming

Especially fond of the Pokémon franchise since 1999, a lasting impression on me from a childhood passion, enhancing my cognitive functions and english vocabulary. Moreover, I enjoy platformers and action RPGs, driven by storytelling, strategy, and collection challenges which involve exploration and attention to detail.

Vintage Pokémon cards collector

Collector of vintage Pokémon cards, including complete sets of the WOTC and EX series. Developing a local tool to track my collection and update its net worth. Actively participating in verified community bidding sessions with fellow enthusiasts.

Private Teaching

One-on-one tutoring of Calculus, Electronics, IT, TLC and Physics to convey complex ideas in a clear, intuitive manner and help students improve academic performance.

Psychology

I place great importance on mental health, including emotional regulation. I pay attention to understanding neurodiversity, with a focus on ASD. by reading and watching content on these topics. Attentive to the impact of disabilities on social inclusion and personal development in all stages of life. Active participant in an Emotionally Focused Therapy (EFT) couples psychotherapy program, which has profoundly and positively reshaped my emotional awareness, regulation, and relational skills.

Home optimization

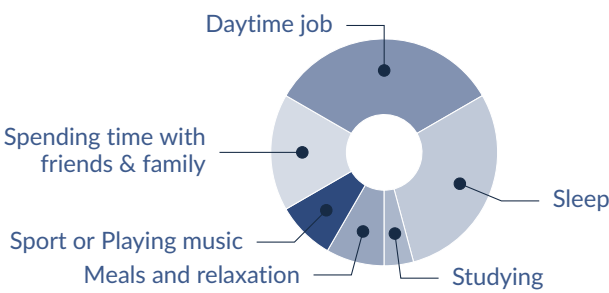

Experience in motor insurance (RCA) with a strong understanding of policy structures, pricing, and claims dynamics. Skilled in analyzing and optimizing electricity and gas utility bills, identifying cost-saving opportunities. Proficient in basic home maintenance, minor repairs, and practical "analog home automation" solutions. Capable of organizing and managing household documentation efficiently. Detail-oriented with a problem-solving approach to everyday operational tasks.

Ubuntu & Linux customization

Enthusiastic about configuring multiple Linux distributions for different private use cases. Focused on learning how Ubuntu works in depth and tailoring the operating system to specific needs. I keep in the know about the latest news

A WEEKDAY OF MY LIFE

COURSES AND EVENTS

Technical and professional skills

- **Odoo ERP development:** Training program with Openforce Pedaso (FM) (Nov 2024 – Jan 2025, 8 weeks), covering the full application life-cycle. Gained hands-on experience in environment setup, model design (including relational and computed fields), and view customization. Developed expertise in business logic implementation using decorators and CRUD operations, as well as model inheritance and modular extensions. Advanced Odoo features including wizards, server actions, scheduled jobs, PDF reporting as well as security configuration, access control, and multi-language (i18n) support.
- Klippel Virtual Lecture 2022 – Sound Quality of Audio Systems (01/2022)
- Masterclass in arrangement and audio recording (10/2019)
- K-ACADEMY (K-ARRAY Certified Operator) – Loudspeaker System Design & Setup Workshop (09/2019)
- K-ARRAY Seminar – Loudspeaker Systems (Politecnico di Milano, Milan) (05/2019)
- B&C Speakers Seminar – Loudspeaker Drivers (Politecnico di Milano, Milan) (05/2019)
- Self-directed **MOOC**: completed several MOOCs across diverse topics (soft skills, programming, PM methodologies etc.)

Humanities and personal development

- **Acting, Theatre, Performing arts** (01/2026 – 07/2026): Concluded with a public stage performance: appeared near the beginning of the main show, and as a brief narrator interlude in a shorter 35-minute piece (*Callaghan*).
- Completed the “**Hold Me Tight**” EFT couples workshop” model (Sue Johnson EFT Italia, Fano, 12/2025).
- **Public speaking and diction course** (09/2025 - 12/2025): effective communication, voice control and expressive clarity emphasizing the role of breathing in speech delivery as well as the ability to manage emotions in front of an audience to engage people on a deeper level. Training includes practical work on articulation and phoneme production to develop inner listening skills and awareness of how communication reflects and shapes personal presence, providing useful insights into self-discovery through interaction with others. → My **personal review** as hands-on practice and *certificate*!
- Hikikomori: The Silence That Screams - Exploring the roots of adolescent social withdrawal (28/03/2025)

SOFT SKILLS

- Teamwork oriented
- Good listener
- Good communicator
- Critical and analytical thinking
- Time management
- Flexibility to change
- Problem-solving
- Strategic vision
- Negotiation
- Eye for detail
- Technical Leadership
- Resilience
- Decision-Making
- Emotional Intelligence
- Adaptability
- Continuous Learning
- Proactive attitude

Samsung & Microsoft ecosystem optimization

Experience in configuring and optimizing Samsung devices and Microsoft cloud services for personal productivity workflows. Skilled in setting up calendars, contacts, and cross-device synchronization with a focus on functional efficiency and data organization. Strong attention to privacy optimization, including account separation, permission management while maintaining seamless usability across services and devices.

Android customization

Understanding of Android internals from a developer’s perspective. Experience in customizing a device with custom ROM and fastboot. Focus also on high-quality digital photography lenses 📷 and digital settings.

3D printing

Decorative prototypes with PLA filament, print optimization, structural support removal, post-processing, and surface finishing and refinement with rotary tools. Acrylic painting applied directly on PLA with optional plastic primers, followed by a protective clear coating.

Data tracking & applied statistics

Experience in building Excel-based models for descriptive statistics and time-based tracking of personal datasets. Focus on analyzing usage patterns through time logging and deriving insights from real-world behavioral data. Applied diagnostic methods to monitor lifecycle trends and performance degradation of electric scooter batteries, using self-collected data to evaluate efficiency, charging behavior, and long-term capacity changes.

Jigsaw puzzles

Long-standing personal interest (typically 1500 pieces) as a leisure activity for a cognitive reset. Subjects range from illustrated artwork and animated themes to classical paintings and panoramic landscapes.

Special Education Needs (SEN)

Studied Educational Sciences out of personal interest, covering psychology, pedagogy, didactics, learning theories, and creativity. It contributed to my broader professional and intellectual formation in teaching and learning processes.

Songwriting

Independent songwriting focused on lyrical composition and melodic structuring over raw acoustic guitar harmonies. Creative process shaped by personal emotional expression and the own influences of rock / songwriting.

VOLUNTEERING

Bone-marrow donor, ADMO

HLA typed and registered as a bone marrow donor in September 2019. Since the same year, I have been active in organizing events supporting the ADMO youth group association in my hometown as a volunteer to raise awareness about the importance of donation. I also served as a regional councilor for three years.

Educator

Support catechism activities in my local parish since 09/2023, combining religious instruction with social and personal growth initiatives. My commitment is to increase social consciousness, and self-awareness through interactive activities and discussions promoting personal and social development of young people.
